## Monetize the Digital Transformation

### Go Beyond Traditional CRM and Further Billing Systems with SAP Billing and Revenue Innovation Management®

#### Invest in new business models to engage your customers more effectively

SAP Billing and Revenue Innovation Management is a comprehensive solution for high-volume consumption businesses, enabling companies to bundle their product offerings into subscriptions. The components of this SAP® solution are part of the SAP S/4HANA® architecture and significantly reduce complexity in the implementation and integration of the four core components: subscription order management, convergent charging, convergent invoicing and contract accounts receivable and payable.

#### Why implement SAP Billing and Revenue Innovation Management?

Depending on the nature of your business, this solution is ideal for companies that aim to capitalize on the digital economy to rapidly launch customer-centric subscription offers, setting your business apart from the competition.

- Exploit fast-moving market opportunities by quickly changing customer pricing and partner revenue-sharing models
- Ramp up efficiency with a billing and revenue management solution that integrates the entire order-to-cash process and provides a low total cost of ownership
