Digital Transformation Distinguished by outstanding services

Embrace the digital transformation

Recent events forced many companies to switch to a higher gear and accelerate the pace of digital transformation. Such an event opened our eyes to the importance of efficient cloud applications. The question is not whether to move to the cloud, but finding a reliable implementation partner. Your future success will largely depend on it.

Get a clear vision for your cloud journey

Bank & Insurance Customer

- **Challenge** - A real-estate company faced the challenge of transforming their current SAP ECC environment for Real Estate Management into their SAP S/4HANA environment.
- **Solution** - The existing system landscape was divided into several process domains that were evaluated separately in workshops. Walldorf Consulting AG mapped the processes of the customer's current solutions to the existing SAP S/4HANA Cloud Best Practices and their own leading practices. Requirements that were not available in SAP environments will be created in SAP Fiori.

Automotive Customer

- **Challenge** - For SAP Billing and Revenue Innovation Management solution, guard rails must be created for development of the financial processes in the context of digital sales.
- **Solution** - We connect two SAP offerings, SAP Subscription Billing and SAP S/4HANA Cloud, using SAP Cloud Platform integration as the middleware platform. In this setup, subscription management and billing are managed under SAP Subscription Billing, while SAP S/4HANA Cloud for Contract Accounting and Convergent Invoicing handles billing, invoicing, payments and financial processes.

Service Delivery Customer

- **Challenge** - A consulting company for SME enterprises using a MS Dynamics ERP solution needed consultation in preparation for their digital transformation.
- **Solution** - SAP S/4HANA Cloud for Professional Services offers a state-of-the art solution to companies that want to manage their customer or internal projects and optimize the workforce staffing. Furthermore, the proposed solution is fully integrated into SAP's solid financial core. SAP Activate methodology offers an established way to onboard new and existing SAP customers.

Try and adopt

Walldorf Consulting AG's certified consultants activate required SAP Best Practices for SAP S/4HANA Cloud and migrate sample data to allow fast testing and solution adoption.
