SAP S/4HANA*

WHO WE ARE

We are Walldorf Consulting. With our international team of more than 80 consultants we digitalize business processes for our clients, applying SAP solutions - that is on premise, hybrid and cloud-based. Right now we are searching for new colleagues to foster the substantial growth of our company. We are looking forward to working with people who love challenging projects in their everyday-life, who like to take responsibilities and share their knowledge within their team and with our partners.

YOUR TASKS

- Analysis of complex business process requirements and provide appropriate system solutions
- Identifying, interpreting, validating and documenting of customer requirements
- SAP MM customization and configuration including requirement gathering, project design with S/4HANA, post implementation support and rollout, error solving and issue handling
- Understanding the business and necessity to work closely as a teamplayer with our internal team and multiple teams from our clients

YOUR REQUIREMENTS

- At least two or more successful SAP MM implementation project experiences
- Skills necessary for the support of S/4HANA MM project(s) and SAP MM project(s) implementation, customization, configuration, integration, migration, testing, documentation
- Very good communication and management skills
- Possibility to work remote and travel to support clients worldwide based on the project requirements and support in different time zones
