SAP S/4HANA\*

### WHO WE ARE

We are Walldorf Consulting. With our international team of more than 80 consultants we digitalize business processes for our clients, applying SAP solutions - that is on premise, hybrid and cloud-based. Right now we are searching for new colleagues to foster the substantial growth of our company. We are looking forward to working with people who love challenging projects in their everyday-life, who like to take responsibilities and share their knowledge within their team and with our partners.

### YOUR TASKS

- Technical Support – strong understanding in Java Development and writing complex queries in Oracle PL/SQL
- Complex Java programming, testing, troubleshooting and debugging in the project
- Project and business process requirement gathering – You will need to understand the basic project business requirements and goals to the project
- As a team player you will need to work closely with internal SAP functional consultants and multiple teams from clients

### YOUR REQUIREMENTS

- Bachelor's Degree, Post Graduate Diploma, Professional Degree or Master's Degree
- Strong understanding in Development Java/J2EE/Java EE and SAP architecture
- Strong experience in cloud based development (Azure, AWS, BTP) with SAP Success Factor and integration with SAP Cloud Platform (Cloud Foundry)
- Very good communication skills
- Work in a different time zones and support clients worldwide based on the project requirements

### YOUR BENEFITS @ WCA
